

PARSON AVIATOR EXPECTS TO FINISH SEA TO SEA RACE TONIGHT

Traveled 1696 Miles in Two Days---
Has 1005 Miles Yet to Go---
62 Planes Yet in Race

Capt. Smith, Going East, is a Close Second to Maynard--One Bad Accident Yesterday

Chicago, Oct. 10--(United Press)--The two leaders in the ocean to ocean air derby were prepared to resume their journey across the continent today.

Lieut. B. W. Maynard enroute to San Francisco, rested at Cheyenne, Wyoming, during the night. He plans to leave at 5:05 mountain time for the Pacific coast. Maynard plans to sleep in San Francisco tonight. He has traveled 1,696 miles in two days and has 1005 miles yet to go. Reports from the west today were that he would encounter heavy going west of Cheyenne by heavy snow storms and high wind.

At Omaha Capt. L. H. Smith early today had traveled 1,460 miles from the Pacific coast and believes the worst part of the journey is over having passed through dangerous climatic conditions surrounding the two west mountain ranges.

All but two of the planes were accounted for today. Two machines left Salt Lake City piloted by Lieut. Hall and Lieut. Fuent have failed to report and it is feared they are lost in the snow storm which swept the Rockies.

One serious accident marked yesterday's flying. Plane No. 63, piloted by Lieut. Wales, was smashed on Elk mountain at Ober Pass, Wyo., in a heavy snow storm. Wales was injured and is being cared for at a ranch house. Second Lieut. Goldsborough, who accompanied him, was only slightly hurt.

Besides Maynard only seven have reached Chicago from the east. They are Nos. 47, 58, 8, 15, 27, 29 and 39. No. 27 was later reported out of the race after reaching Rock Island, Ill. Engine trouble was given as the cause. Nos. 8, 29, 39 and 50 were later to leave Chicago for the west today.

Besides Capt. Smith from the west having reached North Platte, Neb., there were Nos. 62 and 58. The latest report was 62 contestants are still in the race, 49 from the east and 13 from the west.

Leaves For Des Moines

Omaha, Neb., Oct. 10--Capt. L. H. Smith in No. 58, the first of the Pacific coast fliers to arrive here, left for Des Moines at 7:43 A. M. today.

Arrives at Des Moines

Des Moines, Oct. 10--Capt. Smith, leader from the Pacific coast, arrived here at 8:50 A. M. from Omaha.

Drayton at Des Moines

Des Moines, Oct. 10--Capt. Drayton, in plane No. 47, who is seven hours flying time behind Lieut. Maynard, left here for Omaha at 7:24 today. Lieut. Webster who landed northeast of Des Moines, had to spend the night in a farm house because he could not locate the landing field. He was expected to get away early today.

St. Paul, Neb., Oct. 10--Capt. H. C. Drayton, west bound and flying second to Maynard in distance covered, arrived here at 10:25 from Omaha. He left for North Platte at 10:57 A. M. for Cheyenne where Maynard is reported to have engine trouble and 223 miles west of St. Paul, Neb.

Lieut. Worthington arrived here at 9:08 and left at 9:39 A. M. for Omaha. Lieut. Worthington is flying east.

Maynard Loses Lead

Cheyenne, Wyo., Oct. 10--Lieut. B. W. Maynard, the flying Baptist preacher, lost his lead in the transcontinental air derby today when serious motor trouble developed in his DeHavland plane. Maynard estimated he would be delayed at least two hours.

timated he would be delayed at least two hours.

3 Tied Up For Lead Today

Rock Island, Oct. 10--Three contestants in the transcontinental air derby were tied up for the lead today. The three who were here at that hour were Capt. Smith, Lieut. Kiel and Major Spatz, all flying eastward from San Francisco.

Capt. Smith arrived ahead of his two competitors, but was unable to leave because of bad weather. Kiel and Spatz arrived within two minutes of each other. They had traveled 1,736 miles. The trio exchanged greetings and were anxious to be off but officials expected to hold them several hours because of rain. All three of the leaders spent their idle time tuning up their machines and preparing for the final dash to New York. They have hopes of making it by tomorrow night.

The trio had passed the nearest rival in the westward group. Lieut. Maynard, the flying preacher, was last reported at Cheyenne, Wyo., with engine trouble. Cheyenne garage mechanics were baffled by Maynard's motor and it was expected he would get away late this afternoon.

After spending the night at Omaha, Capt. Smith started eastward at 7:43 and reached Rock Island, Ill., at 10:43, his competitors arriving at 12:22. Lieut. Maynard at Cheyenne is 1,699 miles from New York. Officials of the flying group said that Maynard would not be disqualified from flying after sunset, but was free to continue to the next control station.

Close in on Maynard was Capt. Drayton leaving St. Paul, Neb., for North Platte, 96 miles from Cheyenne at 10:57 A. M. Lieut. E. V. Wales whose plane was wrecked in a snow storm near Saratoga, Wyo., died of injuries.

Leaves Des Moines

Capt. Smith left Des Moines for Rock Island at 9:22 A. M. Lieut. Kiel also flying from the west arrived there at 18:18 A. M.

Plane Grounded

Cleveland, Ohio., Oct. 10--Plane No. 38 flying westward in the transcontinental air derby grounded here from Buffalo at 9:32. Lieut. Conly reported bucking a sixty-five mile wind all the way.

Capt. Drayton Arrives

North Platte, Oct. 10--Capt. Drayton running second among the east fliers in the air derby arrived here at noon and departed for the west at 12:30. He is 218 miles behind Lieut. Maynard, who is reported still held up at Cheyenne with motor trouble.

ALBERT UP EARLY. JOKES WITH FARMER

Tin Chaired by Improvement in W. P. H. Health--Will Visit Salt Lake

On board King Albert's Train, Oct. 10--King Albert is an early riser and has far is enjoying his journey across the continent. He was up and dressed, ready to stretch his legs at the first stop the royal special has made.

It was at Manila, Iowa, this morning. His majesty, dressed in blue civilian clothes, clambered off his private car and strolled along the platform at the station, where a small crowd had gathered, eager to catch a glimpse of royalty. One man, in the habiliment of a farmer, stepped up to the tall figure who was enjoying a cigar and a walk before breakfast.

"Can you tell me," he said, "whether the king is going to appear on the platform?"

"No," his majesty responded. "The king is a very lazy fellow and never rises before 10 o'clock."

Washington, Oct. 10--President Wilson was better today, it was stated at the White House at 10:45. There were no indications however that the rest cure would be abandoned.

Further Improvement
Washington, Oct. 10--Further improvement in President Wilson's condition was announced by his physicians at 11:35 today. The official statement said:

"The president had another restful night. His appetite continues to improve and is now taking as much food and as great a variety as we desire."

Senators Visit Steel Workers' Homes

(By United Press)
Duquesne, Pa., Oct. 10--Visiting steel strikers' homes unannounced today, talking with strikers, non-union workmen and wives and children in an effort to learn how they live, senators stood on the street corners, shook hands, questioning them as to working conditions and as to why they were on strike. Wives with infants in their arms and hundred of children clustered around the senators.

(By United Press)
Philadelphia, Pa., Oct. 10--Six men are reported killed and five are said by the police to be dying, as a result of an oil explosion on the steamer Chestnut Hill.

The killed and injured were members of the crew. Several others were badly burned. The vessel was steaming up to depart for Mexico.

First Hand Investigation of Steel Strike

By RAYMOND CLAPPER
(United Press Staff Correspondent.)

Pittsburgh, Pa., Oct. 10--First hand consideration of the steel strike was to begin with the arrival of the senate labor committee today. Senators headed by Chairman Kenyon arrived on an early morning train and are prepared to visit the striking towns in the Pittsburgh district during the day.

McKeesport, Braddock, Duquesne and Homestead are on the schedule, but it was doubtful if the committee could cover the ground mapped out.

Senators plan to go into the mills and question workmen and they will knock unannounced at the kitchen doors of the strikers and will find out how the families are living and the housewife will be asked if her husband's wages are sufficient to meet living conditions.

The condition of foreign workmen will be given close attention. Kenyon has confidence that Americanism in legislation must be won as a result of the investigation gathered by the committee.

Clash at Youngstown

Youngstown, Ohio., Oct. 10--One man is dead, another is in the hospital in a critical condition, and several others were injured in a clash between negroes and foreign born steel workers at Hubbard early today.

Rioting at Clairton

Pittsburgh, Pa., Oct. 10--Rioting broke out at Clairton, near here, when several foreigners, alleged to have expressed their intention of returning to work, were attacked. One man was shot and seriously wounded. Three others were stabbed and many beaten.

Bulgaria Was Given 10 More Days to Consider Treaty--Foch's Ultimatum to Germany

Paris, Oct. 10--(United Press)--Marshal Foch's latest note to the German government threatening to impose a blockade against Germany unless she immediately withdraws her forces from the Baltic was approved by the supreme council of the peace conference today.

It was decided in addition to send an allied commission to the Baltic states to observe German evacuation. The committee decided to send a commission to Budapest to take inventory of the evacuation from Hungary by Roumanian forces. Bulgaria was granted ten days extension to answer the peace treaty.

THREE DIE IN STORM

Many Hurt and Heavy Damage Done in Hoisington, Kansas

Great Bend, Kan., Oct. 9--Three persons killed, nearly twenty injured, some seriously, and property damage estimated at between \$200,000 and \$300,000 was the toll taken by a tornado which struck the little town of Hoisington and its vicinity, north of here, late yesterday.

The dead are Mrs. George Craven and her two children.

Hoisington was cut off from wire communication and was without any lights.

According to reports, the path of destruction was three blocks wide.

GERMANS SOUGHT FOR TRIAL LISTED

Submarine Commanders, Aviators and Military Mayors Are Indicted, Report

Paris, Oct. 9--Great Britain, France and Belgium have prepared lists of hundreds of German army officers whom they will ask to be extradited and tried for committing crimes against recognized rules of war.

The English navy has made up lists of the submarine commanders who torpedoed merchantmen and hospital ships at sea and in English ports. The English will also demand certain Zeppelin and airplane pilots who bombed London.

France will demand numerous German aviators who piloted Gothas over Paris and bombed the city last year.

The French also will demand extradition and trial of those responsible for the long range bombardment of Paris by "Big Bertha." It is believed those guilty may include the leading Krupp engineers who manufactured the cannon as well as the artillery officers who fired the piece.

Belgium wants the German officers who acted as town mayors in the occupied zone during the war and were responsible for the deportations and cruelties.

All will join in demanding justice against the German doctors who let prisoners die without attention, and against the cruel German guards who mistreated prisoners of war.

United States to Support Demands
It is understood the United States will not demand that any Germans be brought to justice, although America must support the allies in demanding the extradition of the former Kaiser, President Wilson having promised Lloyd George and Clemenceau to support them.

According to the treaty terms, these lists of guilty Germans must be submitted within a month after the treaty is ratified.

German Attack Lets Near Riga

(By United Press)

London, Oct. 10--20,000 Germans have attacked the Letts on a ten mile front according to dispatches to the Daily Chronicle from districts close to Riga. The Letts were heavily outnumbered. The correspondent said he viewed the battle while stationed six miles from Riga.

It was preceded by two German airplanes bombing the Letts cavalry headquarters.

SUGAR CONTROL ADVISED

Senate Committee to be Urged to Have Supply Purchased

Washington, Oct. 8--Federal control of commerce in sugar, until December 31, 1920, to prevent increased costs to consumers, is proposed in a bill sent to the Senate committee investigating the sugar situation by W. A. Glasgow, counsel for the Food administration. The committee plans to report the bill today.

Under the measure import and export embargoes could be proclaimed by the President and the sugar equalization board would be authorized to buy the 1920 Cuban crop.

A license system for sugar dealers is proposed and those violating regulations of the equalization board would be subject to \$5,000 fine and two years imprisonment.

Freedom of Right to Strike or Lockout Insisted on Subject Only to Public Right

To the Group of the Industrial Conference Representing Capital and Employers

RALPH COUCH,
(United Press Staff Correspondent)

Washington, Oct. 10--The national industrial conference today voted a recess until 9:30 A. M. Tuesday to give the central committee of fifteen time to study and report on the proposals of the labor group that the conference name a board of six to arbitrate the steel strike. The central committee will meet Monday to take up arbitration proposals.

Washington, Oct. 10--Delegates for the open shop, presented to the delegation representing capital today, a proposed code of its relations to the national industrial conference.

"No employer should be required to deal with men, or groups of men. You are employed or chosen of men among men," said the report.

"This is similar to the stand taken by Judge Gary in refusing to meet the American Federation of Labor officials through the steel strike. Gary taking the position that these officials do not represent his employees. The proposition of the employers group are divided into twelve classes, all of which are in the form of that enunciation of the general principle, that when dealing with the employment of labor, there should be no interference with the open shop, that is, the shop in which one membership in any association is not made a condition of employment.

There should be no denial of the right of an employer and his workers to agree what their relations shall be, that the right of the employer to continue their relations on the principle of the open shop should not be questioned or denied.

A recess of one hour was taken by the national industrial conference this morning, so the central group of fifteen could decide what report to make on the labor group's proposals for arbitration of the steel strike. The committee was a deadlock on its report, Chairman Chadbourne wanted to adjourn until Tuesday but this was blocked by President Gompers of the American Federation of Labor.

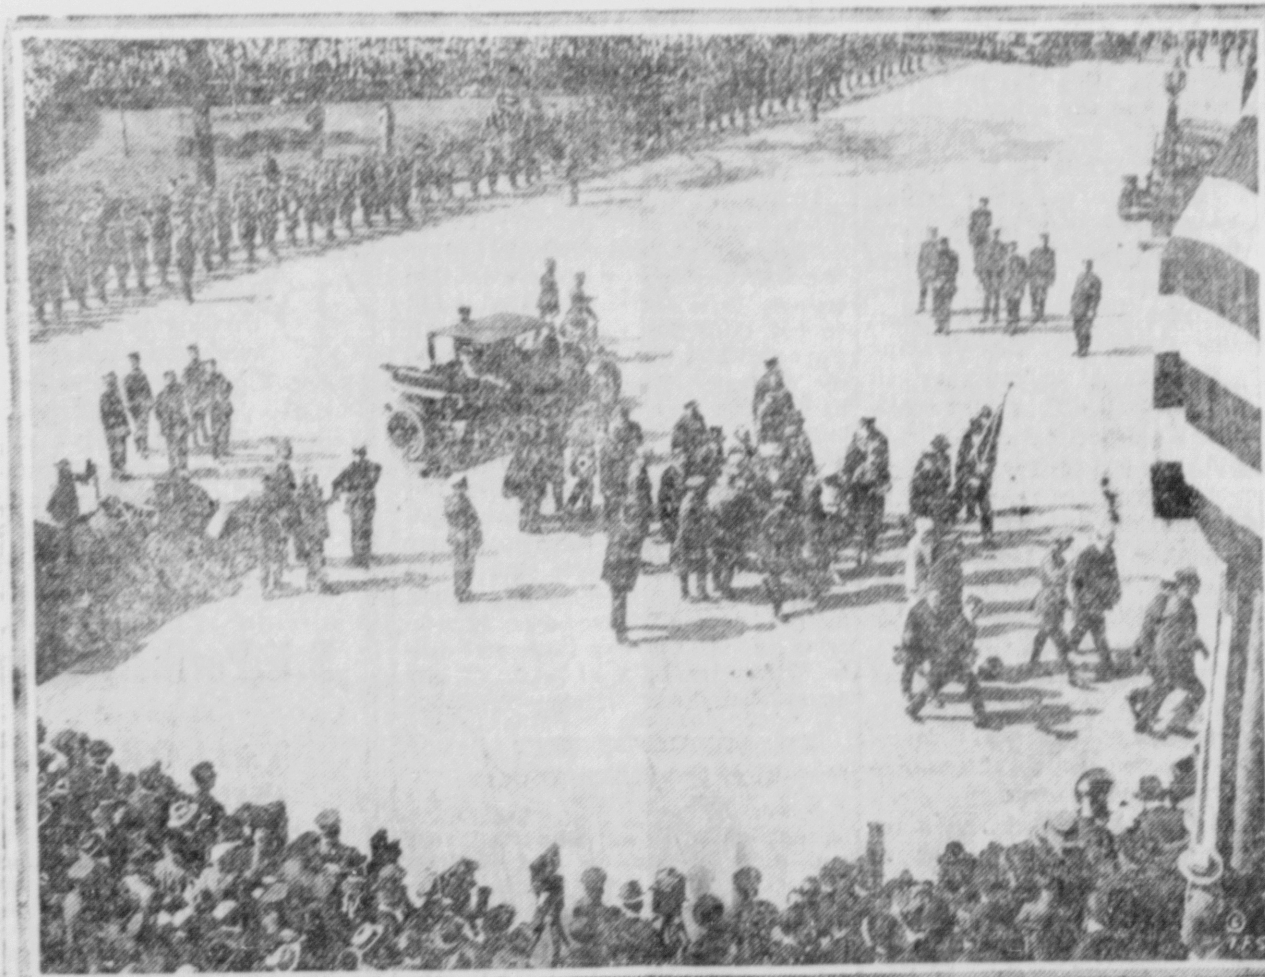

Under the head of "freedom of contract," the employers' group insisted upon "with the right to associate, recognize the fundamental principles of individual freedom, demanding that every person must be free to engage in any lawful occupation, or enter into any lawful contract as an employee, and be secure in the continuity and rewards of his efforts. The only qualifications as to change of contract is subject to the rights of the state within limits imposed by the constitution to regulate in the public interest."

The proposition emphasized that the right to strike or lock-out should not be denied as an ultimate resort, "if every possible means of adjustment had been exhausted. A distinction is made however with respect to strikes in public utility service and government service, in both of which the code declares "when rights and obligations" may be necessary to consider the situation from a somewhat different point of view. In the private industries, the code also contains the sympathetic strike and lock-out as "anti-social and immoral."

Inexpensive Fun.

Probably complaining about "everything all the time does not real good, but it seems to be about the only way we can have any fun at all and still live within our means.--Ohio State Journal.

SMALL BOY ROBBERS
Stole Guns, Bicycle, Money, Etc.—
Opened Faucets of Oil Barrel
in Pillager
(Pillager Herald)
Two young lads, Arthur and Albert
Sands, formerly living north of Pillager,
but later of Brainerd, were ar-
rested at Brainerd last week by the
chief of police following a complaint
of Paul Rundell, of Pillager.

The youngsters, about 10 and 12
years old respectively, came to Pillager
last Thursday, going up to their
old home north of the village. While
there they stole two guns belonging
to Mr. Rundell. One they sold locally
for \$3.00 and the other they hid
away when they could not otherwise
dispose of it. While in the village
they sneaked into the Sorg garage,
and opened a faucet in an oil barrel
with the result that a large quantity
of oil had run on the floor before
being discovered. They also stole
several keys from Ford cars standing
on the streets. At Sylvan they en-
tered the Frank Ramberg store while
he was at the depot, bolted the front
door, and stole out the rear way with
70 cents, taken from the till. At
Brainerd they stole two bicycles one
of which they sold. Besides these
several other small thefts are re-
ported though not directly traceable
to these two youngsters.

Paul Rundell went to Brainerd and
reported the matter. Going to the
Sands home the boys ran upstairs
and locked the door. Confronted
with evidence they made a clean
sweep of the whole affair. As a re-
sult they were taken the first of the
week to the State Training School at
Red Wing.

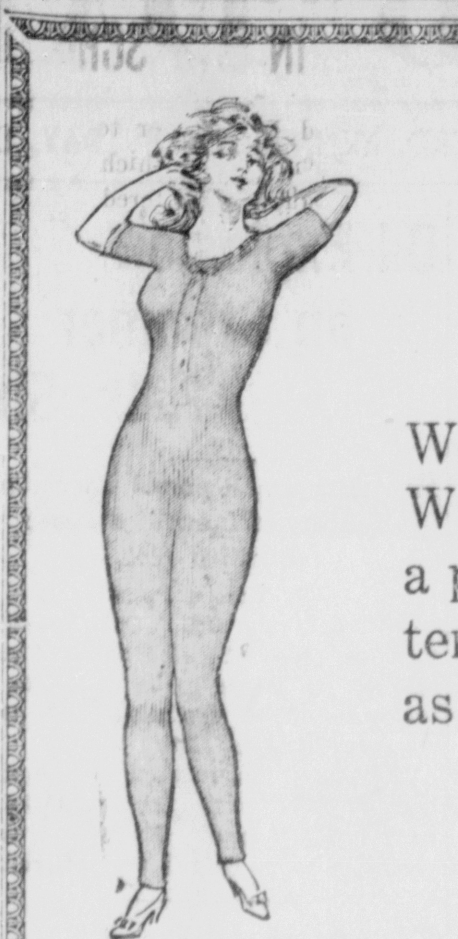

It is deplorable that young boys
should get such a bad start in life,
but since the facts are such, they
will profit by their training at Red
Wing, and we hope to see them re-
turn from there with a new spirit in
life, and that they may grow to prom-
ising young men.

Temperamental Disposition.
Frequently a burst of temper will
throw a whole office out of gear. A
temperamental disposition is some-
times excusable in a great executive,
because it is his safety valve. But
do not think for one minute that it
has aided him to get where he is. On
the contrary it has made him climb
harder, you may be sure. Save your
temper, be patient, be pleasant, and
you will save yourself many reactions
which work against concentration. But
if you will go about your work quietly
you will find that much more may
be accomplished, because your entire
attention will be given to your work,
instead of being frittered away in bick-
ering and fault-finding, futile and cost-
ly detriments to good work of any
kind.—New York Evening Telegram.

WOMAN'S REALM

EXPLAINS LEAGUE OF WOMEN VOTERS

Mrs. James Forrestal, State Organizer of Minnesota Woman's Suffrage Association

TO SPEAK HERE ON SATURDAY

At the Home of Mrs. C. M. Patek on North Third Street—State Conference Soon

Mrs. James Forrestal, state organizer of the Minnesota Woman Suffrage Association, is in the city for the purpose of explaining to the women of Brainerd the plan and policy of the new national movement, the League of Women Voters.

This organization which is strictly a non-party political, educational movement, will hold its first state conference in Minneapolis, Oct. 28-29.

29 at the Radisson hotel and Auditorium. It is for the purpose of explaining the League, and making known the wonderful program offered at the conference that Mrs. Forrestal has come to the city, and a meeting will be held Saturday evening at 8 o'clock at the residence of Mrs. C. M. Patek on 3rd St. North at which time Mrs. Forrestal will speak.

Women who heretofore have taken no interest in suffrage or politics as well as those who have, are urged to be present on Saturday evening to become familiar with what promises to be a world wide organization.

Now that women have the vote, all will avail themselves of the privilege, and will strive to be intelligent voters, and a way to this end is to become a member of the League of Women Voters.

The Locomotive Electric Washer embodies many valuable features not found in any other washer. It is built to give satisfaction, and the materials used in its construction are the best that money can buy.

The movement of the boiler causes a violent agitation of the water in the form of a figure 8. In this way, forcing the water through the fabric cleansing thoroughly and quickly.

The movement of the boiler and the heat under it, form a forceful vacuum and steam action, hastening the cleansing process, sterilizing the clothes at the same time.

The Locomotive Washer is simple in construction, easy to operate, and there is nothing to get out of order. Built from a Woman's point of view.

You may look at other washers, but you will BUY A LOCOMOTIVE WASHER.

Mrs. A. M. McQuaig of New York City will be here next week to demonstrate the machine.

Christiania Against Measure—Beers and Wines Remain

Christiania, Oct. 9.—The vote by which Norway adopted the prohibition of whisky, brandy and other strong liquors in the referendum Monday was 528,455 in favor of prohibition to 248,137 against it. Christiania, however, was strongly against the proposition, only 18,500 voting for it as compared with 70,000 in opposition. The measures do not affect wines and beers.

Proved Truth of Saying.

The saying, "United we stand, divided we fall," comes from one of Aesop's fables called "The Four Oxen and the Lion." Four oxen were attacked by a lion. They were safe when they turned their tails together, and presented their horns, but when they separated the lion killed them singly.

Railway Men Prosperous

Eau Claire, Wis., Oct. 9.—That railroad workers as a rule are among the prosperous ones of the land is indicated by the income tax returns just made by Assessor of Incomes A. E. Cleasby of the district comprising Eau Claire and Dunn counties. His report shows that Altoona, a railroad town two miles east of Eau Claire and with a population of 890, 95 per cent of which is made up of Omaha railroad workers, including conductors, engineers, firemen, shopmen, switchmen and round house men, has 153 persons paying an income tax.

This is by far the largest per capita tax of any community in the county, close to 20 per cent of the population being caught by the income tax. The amount of taxable income represented is \$78,436.

In 1918 the number of income tax payers was thirty-seven, less than half, and the taxable income was \$27,887. The city of Augusta, this county, nearly twice as large as Altoona, has only thirty-nine income tax payers with an assessable income of \$38,939, this number being only four in excess of the 1918 figures, when that city had thirty-five income tax payers. Altoona's record in more than doubling her income tax paying population in a year shows the effect of the big increase in railroad wages made over a year ago.

Approximately one in five in Altoona pays an income tax this year. Figuring five persons to the family, which is the accepted average, the

SUNDAY SCHOOL EXPERT COMING

Rev. James V. Thompson, D. D., in Charge of Young Peoples Department M. E. Church School

IN BRAINERD SATURDAY-SUNDAY

Program of His Stay in Brainerd is Mapped Out—Speaks Regular Church Hour Sunday

Rev. James V. Thompson, D. D., who was instrumental in the working out of the Gary plan of week-day religious instruction and who is in charge of the Young Peoples department of the church school of the Methodist church will be in Brainerd Saturday afternoon and Sunday. He comes to assist the local church in their plans for an exhibit to be shown at the general conference in Des Moines next May, as well as to assist the local church in its endeavor to be a standard school.

Saturday evening at 8 o'clock at the Methodist church he will meet all who are interested in knowing more about the plans for week day religious education. An invitation is extended to all pastors, all Sunday school superintendents and any others interested. He has first hand information and will be most interesting.

He will speak at the regular church hour Sunday morning. Workers are expected from the nearby towns. Sunday afternoon he will conduct a conference for workers at 2:30. This will be of particular interest to the church school workers who are working with those from 12 to 25 years of age. All workers of other denominations are heartily invited. Dr. Thompson comes from Chicago direct to work with the local school and returns there Sunday night.

Dizzy--Wrecked His Automobile

"Two years ago my stomach trouble got so bad that I was almost constantly filled with gas. This made me very dizzy at times. Last fall I was almost overcome by one of these dizzy spells while driving my car and ran it into a telephone pole, badly wrecking the car. A friend recommended Mayr's Wonderful Remedy for my trouble. Since taking the first dose I have steadily improved, and feel better now than ever in my life." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. Be Better Looking—Take Olive Tablets

If your skin is yellow—complexion pallid—tongue coated—appetite poor—you have a bad taste in your mouth—a lazy, no-good feeling—you should take Olive Tablets.

Dr. Edwards' Olive Tablets—a substitute for calomel—were prepared by Dr. Edwards after 17 years of study. Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. You have a clear, pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days you must get at the cause. Dr. Edwards' Olive Tablets act on the liver and bowels like calomel—yet have no dangerous after effects.

They start the bile and overcome constipation. Millions of boxes are sold annually at 10c and 25c. Take one or two nightly and note the pleasing results.

AN ODD WHEAT CROP

One of the most peculiar crops of wheat ever produced in the northwest is being marketed this fall in the Twin Cities, which are receiving nearly all the grain shipped from local elevators in Minnesota and in Dakota. No two crops of wheat are quite alike, as marked variations from the average usually are noted every season, but rarely does a crop depart so radically from the average as does that of 1919, according to Commissioner O. P. B. Jacobson, of the Minnesota Railroad and Warehouse Commission.

Figures compiled by the grain inspection service of the Commission received in Minneapolis is far below the show that the bulk of the wheat means standard of good wheat in the matter of weight. Of 3,523 carloads of dark Northern spring wheat inspected here in September last, only 354 cars were graded No. 1, while 2,060 carloads were graded No. 4 or lower. That is to say, only about 10 per cent of the present crop of northwestern wheat is of the top grade, while about 60 per cent is very light. In the case of the northern spring class, the figures show that only 265 carloads out of a total of 3,449 cars, or less than 8 per cent, was given a rating of No. 1 upon official inspection.

The weight and appearance of the first samples of the present crop of wheat reach the local market were so far below par that the commission men could not even obtain any bids from the millers. Later, however, it was demonstrated through tests conducted by the State Railroad Commission in its laboratory, that the wheat, though shrunken and shelled and light in weight, could be ground into flour, which produced excellent bread. As a result of these milling and baking tests, the United States Grain Corporation, after a conference in New York City, Aug. 26th, with officials from Minnesota and the Dakotas, fixed definite prices for the outcast grain commensurate with its milling value.

The scarcity of high grade wheat naturally has placed it at a high premium as that grain is greatly desired by the millers for mixing with the southern starch wheat, which now is being freely used by the northwestern millers. In the matter of wheat premiums, some unusual situations have developed. For instance, on Oct. 3rd, there was a "spread" in price of 35¢ in bushel between two different samples of No. 1 dark northern, although, theoretically, the two samples should have been quoted alike. The United States Grain Corporation could not have paid more than \$2.21½ for either but the Minneapolis millers offered \$2.95 a bushel for one sample and only \$2.60 for the other, although both graded exactly alike.

Mr. Jacobson believes that the September figures will prove an almost exact indication for the entire crop of the northwest and that only about 10 per cent will be graded as No. 1, while the great bulk will be found to be No. 4 or lower.

LITTLE FALLS TURMOIL

The Little Falls Transcript says editorially that "Little Falls is due for a shaking up in the near future. Plans were laid a short time ago for the apprehension of those who have been doing considerable bling-pigging in the past few months. A case now in court will likely lead to some evidence which the authorities have been looking for. It is a well known fact that a lot of liquor has been sold locally, some of it being brought in by automobile. A lot of local fellows are on the anxious seat just now."

Ceremonies at the Court House at 3 O'clock to be of an Informal Nature

JUDGE MCCLANAHAN SPEAKER

All Officials of County to be Present—Public Invited to the Ceremonies

Due to sudden weather changes, which have turned to cold and called for a greater rush in building operations, the court house corner stone laying ceremonies, at first planned to be very formal, have given away to informal ceremonies set for Saturday afternoon at 3 o'clock.

The public is invited to the exercises. Judge W. S. McClanahan, of the district court will deliver an address. All county officers will be present.

A derrick will swing the corner stone into place and workmen with a few well directed trowel strokes will speedily seal it into place. Within will be placed various records of a timely nature.

The general contractors of the building are J. & W. A. Elliott, of Minneapolis. The architects are Alden & Harris of St. Paul, with Wm. T. Harris as supervising architect.

Plumbing is being done by the Slipp-Gruenhagen Co., of Brainerd; the electric work, by the Brainerd Electric Co.; heating by the American Heating Co., of Duluth; painting by Frank H. McCaffrey of Brainerd.

Cut stone is furnished by Furst, Kerber Co., Chicago; granite by Alexander Bros., of Rockville; metal trim by Zahner Metal Products Co., of Canton, Ohio; glass by Pittsburgh Plate Glass Co.

C. A. Anderson of Minneapolis is the superintendent of construction. The structure will cost about \$270,000 and is expected to be completed about December, 1920.

WOMAN LED THE RAID

Miss Katherine Olinger, State Board of Health Marshal, Filed Complaints in Brainerd

Led by a woman, Catherine Olinger, state board of health marshal, officials of Brainerd and Crosby raided an alleged disorderly house near the Hillcrest location, just outside of Ironton village limits and made four arrests, all of the prisoners being taken to Brainerd, where three were fined \$40 each and the fourth, charged with operating the place was held for the grand jury on bail of \$1,000.

Assisting the woman marshal were John Byrne, deputy sheriff, of Brainerd, and Police Chief C. A. Lewis of Crosby.

The four arrested described themselves as Florence Corey, Ada Laset, Anna Moore and Anna Wesberg. The last named was charged with being the operator of the place.

The raid is the result of the state board of health co-operating with the federal authorities in an effort to stamp out social diseases. Miss Olinger herself obtained the evidence which caused the raid.

She was here last July, ordering several resorts to close, among them being the alleged Wesberg place. The Wesberg woman is said to have ignored the order and then Miss Olinger came back to the range to lead the raid.

Reports From W. W. Michael's Farm and Leslie Grant's Garden in Brainerd

Along with raising California melons successfully, Crow Wing county had quite a crop of southern peanuts, fully matured. W. W. Michael raised several bushels on his farm. Leslie Grant of Brainerd, raised a dozen hills or more in his garden on South Sixth street. Many kids attempted it but failed disastrously because they planted their beds with roasted peanuts. It takes a raw peanut to produce a crop.

The newest silhouettes in Coats and Suits for Fall

Easily said isn't it? The beauty of it all is that we have just these garments to show you. We have never had garments with more "snap," more of that kind that calls forth the full expression that delighted women only know how to give when fully pleased.

Hosiery

Those wishing sheer hosiery for winter wear yet do not wish to wear silk as they are so cold will be interested in our Boulevard lace stripe sheer wool hosiery. They are made of very fine wool and are very pretty. Ask to see them.

Individuality Characterizes These Millinery Creations

Millinery that is different is characteristic of our late millinery showing. There is individuality which women delight in. Not that dreaded sameness but hats with 'life' and character. And, should you not succeed in finding one just to your liking you can make no mistake in leaving your order with our competent artists.

Frocks of the Moment for every Fall Occasion

There are those of velvet, those of satin, those of tricotette, those of silk, those of jersey, those of serge, those of tricotine—yes everything that Fashion is asking for in just the colorings for the season. It is a most excellent selection you may choose from and the prices are as reasonable as consistent with conditions.

Sweaters

Never has the sweater been more in demand than they have been this season. They are made in most attractive styles, the colorings are most desirable and the sweater is so very practical. We have many for both women and misses.

LITTLE SISTER

By ETHEL M. FARMER.

Mary Ann stood at the side of the road and watched her transient visitor settle herself comfortably in her new roadster. It seemed only a minute before she had waved goodbye and had disappeared from view.

It was one of those glorious mornings in early April, when the sun shone exceptionally bright and the sky seemed exceptionally clear, but a slight frown passed over Mary Ann's face as she slowly retraced her steps to her home and to a bag of unfinished darning. Virginia's last words kept running through her mind.

"Of course you know that Kenneth receives his discharge tomorrow and we are all going to meet the train," she had said.

Mary Ann was delighted to know that her neighbor was coming home but the village rumors which were circulated troubled her. She wondered if Virginia's "hope chest" was really filled to overflowing and if she had really bought material for a wedding gown. She did not blame Kenneth if it were true, for Virginia was the prettiest and richest girl in the village.

Yet all the villagers knew and loved Mary Ann, although it was quietly agreed that she was far from good looking. Every one called her "Little Sister" for she had always seemed like a little sister to them all.

Mary Ann's frown soon changed into a smile and she began to sing snatches of songs, for she could never scowl or sigh very long. Then suddenly her bag of work fell to the floor with a thud and she ran eagerly out of the door and down the narrow, cobbled path. She was just in time to throw open the gate for an elderly man who was leaning heavily on his cane as he walked along.

"How is dad after his walk this lovely morning?" She asked cheerfully.

"Fine," he replied, "but a little tired."

He rested his hand for a moment on her shoulder and smiled at her solicitude.

"Do not worry," he assured her, "I am better. Did you know that our neighbor was coming tomorrow?" he asked suddenly, "and the village is planning a hearty welcome? You must be sure to be at the station when he comes."

Her eyes sparkled and her voice was eager when she spoke.

"I will go if you are all right."

"Of course you will go, because I will be all right," and he laughed a deep, rich laugh, for he thought of the happy reunion of his dearly beloved daughter and her old schoolmate. He knew how she had watched the papers with great anxiety while he was in the trenches, and how she had waited with great anticipation and expectations for his home-coming.

It was no wonder that a deep flush passed over "Little Sister's" face when her father said teasingly: "I suppose you and Kenneth will soon be hunting up your old playgrounds?"

The next day dawned clear and beautiful and the air seemed charged with enthusiasm and excitement. The quaint little village was gayly decorated with flags and bunting and strains from the band filled the air. In their last attempt to have a good rehearsal before the train arrived.

Self-satisfied Virginia sat alone in her car, waiting for the parade to start. She seemed more dignified and prouder than ever as she watched the moving mass with great contempt. She seemed pleased to think that she was unmoved and unexcited and only wondered if Kenneth would like her new silk dress and jaunty black hat.

But where was "Little Sister"? Many searched the crowds for her, for she was one of the people who was always missed. But the long parade started for the station without her.

She stood alone at the door of her home and watched the cheering crowd move along. Her father was sick and she dared not leave him alone.

When the train whistled in the distance, the crowd of welcomers moved with one accord nearer the tracks, and the band began its music. All eyes scanned the doors and windows of the train as it stopped and the travelers began to climb off. At last Kenneth was spotted and they rushed to him.

Then the people gave cheer after cheer while Kenneth was being transferred from the train to the top of a large baggage truck, where he was to give a speech.

He seemed to be in excellent spirits and told them about many of his experiences. His ankle had been injured in one of the battles and it would be a long time before he could walk without crutches, but his cheerful smile showed them that he was glad that he was able to do his bit for his country.

After the great festivities were over the returning hero rapped at his old playmate's and neighbor's door. He could hardly wait until the door was flung open and Mary Ann rushed joyfully out to greet him.

"Little Sister" smiled contentedly when he told her the story of his life overseas. And all this time another girl was sitting sedately in her parlor waiting for her "gentleman caller." If she had happened to walk by a certain humble, little cottage, she would have seen two old playmates reunited.

A few months later a very pretty wedding ceremony was performed when a certain "Little Sister" was made "Little Wife," but the "Village Belle" was not present.

BALL FANS DISAPPOINTED

Game at Stillwater Called off on Account of Wet Grounds, is Assertion Made

(Anoka Herald)

Sunday the faithful followers of the Anoka ball team were disappointed when, after trailing in the mud to Stillwater, they learned that the Stillwater manager had decided to call the game off claiming the grounds were too wet. Several fans, who went as far as the ball grounds pronounce this as a fishy excuse. The grounds along the bases were a little wet. But the game could easily have been played.

Several theories have been advanced by fans as to the sudden decision of Stillwater's, which was taken to mean about the same as the "kame-rad" of the German soldier. Some claim that while the celebrated Rube Shauer, who was to pitch for Stillwater, was eating his noonday meal it was discovered that he could not lift a fork to his mouth on account of a lame arm.

Others claim that fans in that city upon seeing Shauer claimed he did not look like a Rube, and objected to his being allowed to appear on their grounds under that name and compel them to stand comparison.

It was also intimated that other members of the team did not show up and that their management fearing the outcome of the game both as to the score and in the financial way decided hurriedly to get out from under some way.

The Anoka team was there and ready for the fray and were disappointed when it was called off.

Anoka at least has a claim equal to Stillwater's for State Semi-pro Championship honors and being unable to get them when they could gain an undisputed claim will have to let it go at that.

Briere's colts certainly showed Stillwater the fastest ball they have seen this season.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the blood on the mucous surfaces of the system. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials.

Old Bridge Stood for Centuries.
The new London bridge was opened on August 1, 1831. This replaced the celebrated old bridge, built more than eight centuries before. It had 18 solid stone piers, with bulky stone arches and was covered from end to end with buildings. On the "Tailor's gate," at one end, the heads of traitors were shown. It was removed on account of its obstruction to navigation.

SAGE TEA DANDY TO DARKEN HAIR

It's Grandmother's Recipe to Bring Back Color and Lustre to Hair.

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old famous Sage Tea Recipe, improved by the addition of other ingredients, are sold annually, says a well-known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray or becoming faded have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful.

This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur Compound to-night and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.

This preparation is a toilet requisite and is not intended for the cure, mitigation or prevention of disease.
